A NEW BRAND BULL SALE

Hosted by www.showstock.com

For most up to date Auction information visit paintvalleyfarms.com

Tuesday, March 21, 2017

Bidding Closes at 8:00 PM est

Welcome to A New Brand Bull Sale,

We are offering 20 outstanding bulls that excel in calving ease and are backed by a cow herd that is rooted in maternal function. We believe data collection is an important part of building a better beef animal and thus, we have collected all the data from birth to the carcass scan to help you make an informed decision. All the bulls will Pass a Breeding Soundness Exam prior to the sale. The seller reserves the right to an in herd semen interest on the bulls offered in the sale. Contact us for assistance with the arrangement of delivery.

You can view our display on the Genetic Pathway at the Ohio Beef Expo, March 17-18 or stop by Paint Valley Farms and Byland Polled Shorthorns March 19-21. Please don't hesitate to contact us with any questions. Thank you for your interest in our programs!

*Best Regards,
Lee Miller*

This bull is an absolute stud! He excels in muscle shape, a big ribeye and depth of body while still offering exceptional calving ease. He was recently named the Grand Champion Shorthorn Plus bull at the National Western Stock Show. 74C is 75% Shorthorn, 25% Angus. Considered heifer safe.

 Ranks in the top 20% of the breed.

13	-1.2	41	44	20	41	7	49.71	125.56	46.14

A heavy muscled McCoy son out of one of the top fall calving cows on the farm. His dam is a big barreled cow and a maternal sister to JSF Gauge. He scanned the biggest ribeye in the fall group, is full of red meat and has a head that reads herd bull. This bull is big time good! He is a trait leader for calving ease and \$BMI. Considered heifer safe.

A McCoy son out of one of those big barreled Lauer cows in the fall group. I really think this bull will leave a great set of females, as his dam, 7F35, has been very productive here. He is a big footed, sound made, long sided, smooth shouldered bull and a trait leader for calving ease and \$BMI. Considered heifer safe.

Broadway is a headliner type of a bull. He has impeccable structure from the ground up. He has deep rib and flank making him well balanced, wide body structure allowing thickness and performance potential. He ranks in the top 5% of the breed for \$BMI. His sire, Studer's Universal 10B, is quite convincingly proving his value as a sire in our program. He ranks in the top 10% for \$BMI and top 2% for \$F. Broadway's Dam is a Jenny by JSF Gauge, a knockout combination. She ranks in the top 4% for the breed for \$BMI.

7	2.4	72	80	20	56	6	22.19	153.68	61.28

City Lights is a big volume bull with loads of width, depth and thickness. This bull ranks in the top 3% of the breed for WW and top 10% for YW. He is also in the top 2% of the breed for \$BMI. His sire is adding performance and body to the mix, his dam, Byland Velvet 3G23, by JSF Gauge, ranks in the top 1% for %BMI just like her own sire and dam. Velvet 3G23 also ranks in the top 10% for \$F and top 20% for \$CEZ. Moderate birth weight and performance with productivity. Everything you have ever asked for!

This bull has been a favorite of my son Derek and I since he was born outside on a 20 degree day last January. Derek named him Dog because he was puppy dog tame in the pasture last summer. (He is the highest \$CEZ and \$BMI combination in the entire offering.) If you are looking for fancy, small, vigorous calves out of heifers, pick this one! Considered heifer safe.

Lot 22B - 5 Units - Semen stored at Great Lakes Sire Service

Expected Progeny Differences

Calving Ease Direct (CED) – The most important EPD in sire selection for use on heifers.

Birth Weight (BW) – an indicator of birth weight and calving ease.

Weaning Weight (WW) – an indicator of growth from birth to weaning measured from adjusted 205 day weights.

Yearling Weight (YW) – an indicator of growth from birth to one year of age measured from adjusted 365 day weights.

Milk (MK) – measured in pounds of calf attributed to milk at weaning.

Total Maternal (TM) – a combination of weaning and milk EPDs this number expresses a cow's ability to bring in a heavier calf at weaning.

Calving Ease Maternal (CEM) – If planning to retain daughters from a particular bull then CEM is very important.

\$ Indexes

Calving Ease Direct (\$CEZ) – This index assumes a bull will only be mated to heifers, not cows. The potential profitability of the sire is measured by the incidence of live calves at birth. Moderate mature size is also emphasized in the index, but performance is not a priority.

British Maternal Index (\$BMI) – This multi-trait selection index attempts to measure a bull's potential profitability when complimenting the British cow base (Angus, Red Angus, Hereford, etc.). Shorthorn females can likewise be gauged at adding value to British or British-composite bulls of other breeds.

Feedlot (\$F) – \$Feedlot places strong emphasis on growth and carcass traits. This multi-trait index assumes the sire will be mated to a mix of heifers and cows and attempts to measure profitability when progeny are sold on the fed market
